chief,

I just want to say,

I want The Puget Sound Orcas to be saved as a "depleted species". I don't have any new ideas but do think Puget Sound needs a lot of cleaning up, which would help.

**Mountain Lion** ■ This cat is known by many names: cougar, puma, panther, mountain lion and catamount. Many cougar populations that once lived in the United States are now extinct due to habitat loss.

To find out how you can help save America's wildlife by becoming a member, call Audubon at 1 (800) 274-4201.

Thanks. Bonnie Scott, Ravensdale, Wa
